What is My HSA Rewards?

My HSA Rewards is a free program designed to add more money to your Health Savings Account. You can contribute real cash back rewards into your HSA on everyday spending at places you are already shopping.

Unlike points based reward programs, you know how much you are getting with My HSA Rewards. A dollar earned is worth a dollar. A percentage of each qualifying purchase will automatically be deposited into your private and secure online rewards account. With a 'point and click' you can transfer this directly into your HSA as a tax-free contribution. As easy as 1-2-3!
